

*Sent on behalf of Professor Oliver Bandmann (UK PD-CSG Chair) and
Emma Davies (UK PD-CSG Coordinator)*

Dear PDNSA Members,

The UK Parkinson's Disease Clinical Studies Group

Interested in Parkinson's Research?

The UK Parkinson's Disease Clinical Studies Group (UK PD-CSG) is a national group bringing together the expertise & enthusiasm of professionals passionate about Parkinson's Disease Research.

Who? Neurologists, Parkinson's Disease Specialist Nurses, Geriatricians, People with Parkinson's, Charity Representatives, Researchers, and others.

Why? Members are united in striving to develop and enhance the Parkinson's clinical research landscape across the UK. By unifying researchers and other individuals passionate about Parkinson's research, we strive to bring more research opportunities to those affected by Parkinson's.

How? The UK PD-CSG holds regular meetings where studies of particular interest are presented, strategic Parkinson's research discussions occur, and collaborations are facilitated. We coordinate a variety of workstreams to support researchers deliver high quality research, including supporting those who are new to research.

Interested? If you would like to find out more, please do get in contact with our Coordinator, Emma Davies or visit our website (details below). We would welcome membership applications and requests to join our distribution list to stay up to date with various opportunities.
